## COMPANY NEWS

### Coronavirus Update

In these uncertain times, we wanted to reach out to you about what we are doing here at Mérieux NutriSciences Australia to support your business. As the situation around novel coronavirus (COVID-19) continues to evolve, we are committed to ensure continuity in our service to you.

**Currently, all of our sites across Australia (Melbourne, Sydney, Brisbane and Perth) are continuing to operate as usual.** Rest assured that **should this status have to change at any stage** in the coming days/weeks/months, and consequently your services with us are impacted, **we will be informing you directly.** **The benefit of being a global organisation is that we have a broad, solid and secure network of laboratories and specialists that we can lean on should it be required, whether it be laboratory testing, auditing services or label compliance services that we are currently assisting you with, continuity of service is our aim.**

We have the health and wellbeing of our clients, employees, visitors, and couriers at the top of mind, and as we are in the business of population health and safety, many of our already existing processes and procedures align with the global recommendations on keeping people safe in this situation. This remains a key priority.

We will continue to monitor the evolution of this crisis and keep you informed of any future developments where relevant to our business relationship.

We thank for your understanding and collaboration.
