KNOW HOW TO PUT ON A SHOW

NEW TECHNICAL THEATRE
COURSE WITH PLS

COURSE OUTLINE

Performance Lighting & Sound are pleased to present another in their series of One-Day Technical Theatre Courses.

'Know How to Put on a Show'

This one-day course is ideal for anyone involved with staging performance and presentation events. So whether you are a school teacher planning a musical extravaganza, a tech crew member, a theatre group enthusiast, a drama or music student, a person looking to make a career in technical theatre, or just want to learn all you can about how to make live performance events successful, this one-day course is designed for you.

Content will be presented by experienced entertainment industry professionals who will provide insight in their various areas of expertise, providing vital information and tips on what you need to get your gig up and running, and how to make it *exciting and successful!*

Whilst the major focus will be on what can be achieved with the use of technology and technical requirements of live events, other areas of focus will include planning and organisation, logistics and project time-lines. Participants will have many opportunities throughout the course to gain valuable information and ask questions, and will receive a Certificate of Participation.

FOCUS TOPICS WILL INCLUDE

- Planning and Organisation
- Technical Requirements
- Risk Management
- Logistics
- Project Planning and Time Lines
