

HenderCare COVID-19 Update

Keeping you and our team members safe

In Australia, international and national borders are open again.

People can travel around Australia again.

People from other countries can come into Australia again.

Now that more people will be travelling around Australia, the Australian Government made new laws.

These laws will reduce the spread of Covid-19

The new laws mean that all people who work in healthcare **must have the Covid 19 Vaccination.**

HenderCare COVID-19 Update

At HenderCare, **your health** and the **health of our staff** is very important to us.

HenderCare is following the Australian Government's laws.

All HenderCare staff will soon be fully vaccinated against Covid-19.

If you get support services from HenderCare, **you do not need to be vaccinated.**

You will still get the same support whether you are vaccinated or not.

We encourage everyone to be vaccinated because it is very important for you and the community.

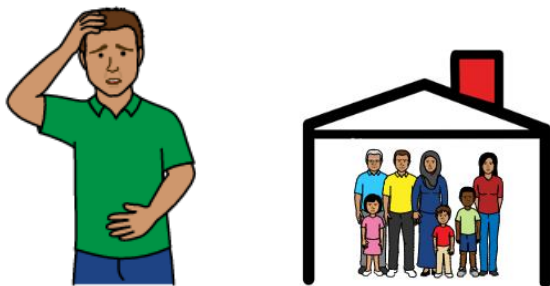

If you want to talk to someone about Covid-19 vaccinations, you can:

- talk to your GP.
- go to the Department of Health website.

HenderCare COVID-19 Update

If you feel sick, or if someone else in your house feels sick - this is called a **COVID RISK**.

Please call and reschedule the service

If you are not sure if you or your house is a **Covid risk**, call us or [click here to view our Health Check questions](#)

If a HenderCare worker comes to your house and **there is a Covid risk**, the service will be cancelled.

We can't come into your house if you or someone is sick.

You will still be charged for the service if a HenderCare worker arrives at your house, and someone is sick.

If you want to talk to HenderCare about this information, please email hello@hendercare.com.au
