

# Nature Strip Planting Workshop

## Learn how to transform your nature strip

Join the Heart Gardening Project's founder Emma Cutting in a free presentation.

Emma Cutting has transformed dozens of nature strips and public spaces in our community and she's now focusing on expanding the Melbourne Pollinator Corridor, an eight kilometre community-driven, ecologically-centered wildlife corridor connecting Royal Botanic Gardens Melbourne and Westgate Park.

Come along to one of our Nature Strip Planting workshops – a daytime workshop at Emerald Hill Library or evening workshop at St Kilda Library – to learn tips and tricks for preparing your nature strip for planting. Emma will take you through the steps, she'll introduce you to some of the best plants for attracting pollinators and she'll share her passion and knowledge for connecting people and nature!

### Day session

**Tuesday 30 April**

12 midday to 1.30 pm

Emerald Hill Library, South Melbourne
